INFORMATION ABOUT THE NORTH CAROLINA REGISTER AND ADMINISTRATIVE CODE

NORTH CAROLINA REGISTER

The *North Carolina Register* is published monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately one hundred pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The *North Carolina Register* is available by yearly subscription at a cost of ninety-five dollars (\$95.00) for 12 issues.

Requests for subscriptions to the *North Carolina Register* should be directed to the Office of Administrative Hearings, P. O. Drawer 11666, Raleigh, N. C. 27604, Attn: *Subscriptions*.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the *North Carolina Register*. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the *North Carolina Register* before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the *North Carolina Register*.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in

effect for the period specified in the rule or 180 days, whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size, single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

- (1) Single pages may be obtained at a minimum cost of two dollars and 50 cents (\$2.50) for 10 pages or less, plus fifteen cents (\$0.15) per each additional page.
- (2) The full publication consists of 52 volumes, totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. A one year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars (\$750.00). Individual volumes may also be purchased with supplement service. Renewal subscriptions for supplements to the initial publication available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

EXECUTIVE ORDER NUMBER 58

**EXTENDED GRACE PERIOD FOR OBTAINING
1988 COMMERCIAL FISHING LICENSES**

Those persons engaged in commercial shellfishing in North Carolina are experiencing severe financial difficulties owing to the Red Tide infestation along portions of the North Carolina coast.

In order to help ease the financial burden on this segment of our State's population, I hereby direct the Division of Marine Fisheries of the Department of Natural Resources and Community Development to extend through March 31, 1988 the grace period for obtaining all 1988 commercial fishing licenses. This order shall apply only to those individuals who currently hold a 1987 license.

Done this 11th day of December, 1987.

EXECUTIVE ORDER NUMBER 59

**AMENDMENT TO EXECUTIVE ORDER
NUMBER 15 "JUVENILE
JUSTICE PLANNING COMMITTEE"**

The Juvenile Justice Planning Committee was established by Executive Order Number 15 on June 28, 1985.

In order to meet the Federal guidelines contained in the Federal Juvenile Justice and Delinquency Prevention Act of 1974 as amended, it is now necessary to alter the membership requirements of that committee.

THEREFORE, by authority vested in me as Governor by the laws and the Constitution of North Carolina, IT IS ORDERED:

Section 1(b) of Executive Order Number 15 is amended to read as follows:

The following seven members shall be appointed by the Secretary of the Department of Crime Control and Public Safety for a term of two years: a representative of a business group or a business that employs youth; two (2) representatives of private organizations that focus on strengthening the family unit or of parent groups or of those concerned with neglected or dependent children or delinquency prevention and

treatment; a representative of local government youth serving agency; three youth members under the age of 24, and who are or have been under the jurisdiction of the juvenile justice system.

All other provisions of Executive Order Number 15 remain in force.

This order shall be effective immediately and shall remain in effect until June 30, 1989.

EXECUTIVE ORDER NUMBER 60

**GOVERNOR'S TASK FORCE ON THE NORTH
CAROLINA DRIVER LICENSE SYSTEM**

Each year in North Carolina, approximately 1.75 million citizens visit examining stations operated by the Driver License Section of the Division of Motor Vehicles, North Carolina Department of Transportation, to obtain original, renewal and duplicate driver licenses, photo identification cards and learners' permits. The Driver License Section has more direct contact with the citizenry of North Carolina than does any other branch of State Government. Where, when and how the Driver License Section provides its services is vitally important to the State and to the public.

Since the establishment of the North Carolina Driver License System in 1935, no comprehensive study has been made by the State to evaluate the effectiveness of its delivery of services to the public, to analyze the need for enhancing the quality of the existing system, or to review administrative procedures and statutory requirements. In view of the elapsed time and the rapid increase in the number of licensed drivers who must be served by the Driver License Section, such comprehensive study is hereby deemed necessary and in the public interest.

Therefore, by the authority vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

Section 1. ESTABLISHMENT

The Governor's Task Force on the North Carolina Driver License System is hereby established. The Task Force shall consist of at least twenty and not more than thirty members appointed by the Governor to serve at the pleasure of the Governor. All vacancies shall be filled by the Governor. The Governor shall designate one of its members as Chairman and one as Vice-Chairman. The Secretary of Transportation or

his designee and the Commissioner of Motor Vehicles or his designee shall serve as ex-officio members.

Section 2. FUNCTIONS

(1) The Task Force shall meet regularly at the call of the Chairman. The Task Force is authorized to conduct public hearings for the purpose of receiving the comments and suggestions of citizens throughout the State.

(2) The duties of the Task Force shall be to conduct a comprehensive study of the North Carolina driver license system, and shall formulate recommendations for enhancing the operations and improving the delivery of services to the public by the Driver License Section of the Division of Motor Vehicles.

Section 3. ADMINISTRATION

(a) The Special Assistant to the Commissioner of Motor Vehicles shall provide principal staff support to the Task Force. The Secretary of Transportation and the Commissioner of Motor Vehicles may designate such other personnel from their respective staffs as they deem appropriate and necessary to furnish guidance and assistance to the Task Force.

(b) The Task Force is authorized, subject to the availability of funds to retain consulting service(s) or employ such professional(s) if it determines that such service(s) or professional(s) would offer a cost-efficient method of gathering information. Funds for the retention and payment of such services(s) or professional(s) shall be made available from funds authorized by the Division of Motor Vehicles.

(c) Members of the Task Force may be reimbursed for necessary travel and subsistence expenses as authorized by N.C.G.S. 138-5. Funds for reimbursement of such expenses shall be made available from funds authorized by the Division of Motor Vehicles.

(d) Funds for the support of the Task Force study, in addition to expenses authorized in Section 3, subsections (b) and (c) above, shall be made available from funds authorized by the Division of Motor Vehicles.

Section 4. REPORTS

The Task Force shall present its final report and recommendations to the Governor not later than September 1, 1988.

Section 5. IMPLEMENTATION AND DURATION

(1) This order shall be effective immediately.

(2) The Commission shall dissolve at the pleasure of the Governor, but no later than December 30, 1988.

Done at Raleigh, North Carolina, this 11th day of December, 1987.

EXECUTIVE ORDER 61

**AMENDMENT TO EXECUTIVE ORDER 49
GOVERNOR'S ADVISORY COMMISSION ON
MILITARY AFFAIRS**

The Governor's Advisory Commission on Military Affairs was created by Executive Order 49, signed on May 20, 1987.

In order for that Commission to properly carry out its duties it is necessary to amend Executive Order 49.

THEREFORE, by the authority vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

Section 1.

The first sentence of Section 4 of Executive Order 49 is hereby amended to read:

"Support staff for the commission shall be provided by the Department of Crime Control and Public Safety."

Section 2.

All other sections of Executive Order 49 remain in force.

Done in Raleigh, North Carolina, this the 30th day of December, 1987.

EXECUTIVE ORDER NUMBER 62

**AMENDMENT TO EXECUTIVE ORDER
NUMBER 41 "GOVERNOR'S TASK FORCE
ON DEVELOPMENT OF PRIVATE SEED
VENTURE CAPITAL SOURCES"**

The Governor's Task Force on Development of Private Seed Venture Capital Sources was established by Executive Order Number 41 signed on March 20, 1987. That executive order directed the Task Force to present a report of recommendations to encourage development of a private seed venture capital fund to the Governor and the Secretary of the Department of Commerce by not later than the 1st day of September, 1987.

Due to the Task Force's concentration on immediate legislative opportunities which occurred during the 1987 General Assembly, that report was not completed nor submitted. There continues to be a need for such a report.

EXECUTIVE ORDER

THEREFORE, by the authority vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

That the report called for in Section 4 of Executive Order Number 41 signed on March 20, 1987 be submitted to the Governor and the Sec-

retary of the Department of Commerce not later than the 1st day of May, 1988.

All other sections of Executive Order Number 41 shall remain in effect.

This the 30th day of December, 1987.

Dear Mr. Cogswell:

This refers to your August 6, 1987, letter concerning Ordinance No. S1985-17 and Resolution No. R1985-119 which provide for an increase in the size of the city council from six to nine members and the districting plan for the City of Fayetteville in Cumberland County, North Carolina.

We have reviewed our files and it appears that our March 3, 1986, letter had a typographical error. Our files show that Section 5 preclearance was provided to Resolution No. R1985-119 rather than to Resolution No. R1985-109 as was stated in our letter. SECTION .0600 - PAYMENT PROCEDURES

.0605 LOST: STOLEN AND FORGED CHECKS

(a) If a recipient reports that a state-issued assistance check has been lost or stolen before he has endorsed it, the county department shall have the recipient sign an affidavit that he did not receive the check. Within 10 days after the check is reported lost or stolen, the county department shall request a replacement check from the state office. ~~If the check has been signed, the state shall send the endorsed check and signature samples of the recipient to the State Bureau of Investigation for handwriting analysis. If the analysis indicates that the check was forged, a replacement check shall be issued. If the analysis indicates that the recipient endorsed the check, a replacement check will not be issued.~~

(1) If the check has not been paid, the state shall issue a replacement check and issue a stop payment for the original check.

(2) If the check has been paid, the state shall send to the county a photocopy of the endorsed check and a Forgery Affidavit. The county shall compare, or shall arrange for comparison by experts in the field of document examination, the endorsement to other known signatures of the payee.

(A) If forgery is suspected, the county shall submit to the state the completed and signed Forgery Affidavit. The state shall issue a replacement check.

(B) After the county makes its analysis and a determination is made that the payee endorsed and cashed the check, it shall notify the state. The state shall not issue a replacement check.

(b) If a recipient reports that an assistance check has been lost or stolen after he has endorsed it, the county department will request a replacement check of the state office. If the check has not been paid by the State Treas-

urer, a replacement check will be issued. If the check has been paid, a replacement check will not be issued. It is the responsibility of the recipient to take legal action.

Authority G.S. 143B-153; 45 C.F.R. 233.20.

.0609 DETERMINATION OF PAYMENT AMOUNT

(a) To determine the amount of the AFDC payment, once eligibility has been established, the county shall subtract the total countable net income of the assistance unit (excluding the unemployment benefit received by the principal earner in an AFDC-UP case) from the Need Standard, including any special needs allowances, for the number in the assistance unit. The AFDC payment amount shall be 50 percent of the deficit.

(b) If the assistance unit has no countable income, the AFDC payment shall be 50 percent of the Need Standard, including any special needs allowances, for the number in the assistance unit.

(a) Various types of sponsored clinics, with the participation of at least one rostered physician, will be conducted periodically throughout the State of North Carolina. ~~Two initial diagnostic visits per supported medical condition will be available to all children regardless of economic status.~~

Statutory Authority G.S. 130A-124.

SECTION .0400 - SERVICES

.0401 CLINIC SERVICES

(a) Children's Special Health Services shall sponsor clinics to provide care for children with a number of conditions. Any child may be referred for a diagnosis when suspected of having an accepted medical condition, regardless of family income; but those children who do not meet the financial eligibility criteria in Rule .0304 of this Subchapter shall not be supported for treatment by the program. No charges will be imposed for diagnostic services provided to children whose family income is at and below the financial eligibility scale for

program services. A child whose family's income is above the financial eligibility scale for Children's Special Health Services shall have access to diagnostic services in a program sponsored clinic in accordance with the provisions of Paragraph (b) of Rule .1208. To receive treatment services in a program sponsored clinic, a child must meet the Children's Special Health Services eligibility criteria of age, residence, medical condition and family income. A concerted effort shall be made to coordinate services received in sponsored clinics and in hospitals with primary health care providers. There will be the following kinds of sponsored clinics:

- (1) Orthopedic clinics. These clinics shall be located throughout the state, and may be held monthly or more frequently. Notwithstanding the provisions of Paragraph (a), two initial diagnostic visits shall be available to all children regardless of family income. Arrangements for treatment, such as hospitalization, appliances, and/or physical therapy, may be made at that time.

Statutory Authority G.S. 130A-124.

SECTION .1200 - CHILDREN'S SPECIAL HEALTH CONTRACT FUNDS

.1205 SCOPE OF SERVICES

(b) Outpatient clinic services shall include evaluation, treatment, follow-up and referral. Program eligible children shall be given first priority for clinic services paid through the Children's Special Health Services contract. Diagnostic services provided to over-income children through the use of a sliding fee scale may be subsidized through the contract contingent upon the availability of funds.

Statutory Authority G.S. 130A-124.

.1208 CLIENT AND THIRD PARTY FEES

(a) Children's Special Health Services eligible individuals or their families will not be billed.

(b) If a Children's Special Health Services contract clinic chooses to provide diagnostic services to children whose family income is above the Program's financial eligibility scale, the contract clinic can provide those services if a sliding fee scale is established to charge over income families except as provided in Subparagraph (a) (1) of Rule .0401. The sliding fee scale shall reflect income and family size of

clients. No charges shall be imposed for diagnostic services provided to children whose family income is at and below the program's financial eligibility scale.

~~(b)~~ (c) All Children's Special Health Services contractual agencies are required to bill all available and appropriate reimbursement sources.

- (1) All fee collections must be budgeted and expended during the fiscal year earned or within the subsequent fiscal year. Billing rates must be based consistently on established Medicaid rates outlined in the Title XIX Memorandum of Understanding between the Contractor and the division governing Medicaid reimbursement and dated July 1, 1984, and established state and program reimbursement guidelines. Fees, upon approval of the program, will be used to either expand program services or to reduce the amount of state appropriation.
- (2) All anticipated fees that have been budgeted must be reported and expended in the quarterly expenditure reports as earned.
- (3) All fees brought forward from the prior fiscal year shall be expended prior to the expenditure of state appropriations.
- (4) All fees earned in excess of the original budgeted amount cannot be budgeted and/or expended without prior written approval of the program director.

SUBCHAPTER 10D - WATER SUPPLIES

SECTION .0700 - PROTECTION OF PUBLIC WATER SUPPLIES

.0702 DEFINITIONS

- (3) "Best available technology" or "BAT" means the best technology, treatment techniques, or other means which the department finds, after examination for efficacy under field conditions and not solely under laboratory conditions are available (taking cost into consideration). For purpose of setting maximum contaminant levels for synthetic organic chemicals, any BAT must be at least as effective as granular activated carbon.
- (27) "Public water system"
- (b) A public water system is either a "community water system" or a "non-community water system":
- (iii) "Non-transient, non-community water system" means a public water system that is not a community water system and that regularly serves at least 25 of the same persons over six months per year.
- (28) "Point-of-entry treatment device" is a treatment device applied to the drinking water entering a house or building for the purpose of reducing contaminants in the drinking water distributed throughout the house or building.
- (29) "Point-of-use treatment device" is a treatment device applied to a single tap used for the purpose of reducing contaminants in drinking water at that one tap.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

SECTION .1000 - WATER SUPPLY DESIGN CRITERIA

.1008 LEAD FREE CONSTRUCTION

- (a) Any pipe, pipe fitting, solder or flux used after June 19, 1988 in the installation or repair of any public water system shall be lead free.
- (b) "Lead free" means that solders and flux shall not contain more than 0.2 percent lead, and pipes and pipe fittings shall not contain more than 8.0 percent lead.
- (c) This Rule shall not apply to leaded joints necessary for the repair of cast iron pipes.

(d) By June 19, 1988, each public water system shall provide notice to persons that may be affected by lead contamination of their drinking water when contamination results from the lead content in the construction materials of the public water system distribution lines or from corrosivity of the water supply sufficient to cause leaching of lead. The manner and form of the notice shall be in accordance with 40 C.F.R. 141.34 which is hereby adopted by reference in accordance with G.S. 150B-14(c).

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

SECTION .1600 - WATER QUALITY STANDARDS

.1624 ORGANIC CHEMICALS OTHER THAN THIM: SAMPLING AND ANALYSIS

(e) Analysis made to determine compliance with 10 NCAC 10D .1639(a) shall be conducted as follows:

- (1) Ground-water systems shall sample at points of entry to the distribution system representative of each well. Ground-water systems must sample every three months for each entry point to the distribution system except as provided in paragraph (e)(6)(i) of this Rule. Surface water systems shall sample at points in the distribution system after any treatment application. Surface water systems must sample each source every three months except as provided in Paragraph (g)(6)(ii) of this Rule; sampling must be conducted at the same location or a more representative location each quarter. If a ground or surface system draws water from more than one source and sources are combined before distribution, the system must sample at an entry point to the distribution system during periods of normal operating conditions.
- (2) All community water systems and non-transient, non-community water systems serving more than 10,000 people shall analyze samples beginning no later than June 1, 1988. All community water systems and non-transient, non-community water systems serving from 3,300 to 10,000 people shall analyze samples beginning no later than January 1, 1989. All other community and non-transient, non-community water

systems shall analyze samples beginning no later than January 1, 1991.

- (3) The department or the United States Environmental Protection Agency may require confirmation samples for positive or negative results. If a confirmation sample(s) is required, then the sample result(s) should be averaged with the first sampling result and used for compliance determination in accordance with (g)(7) of this Rule. The department may delete results of obvious sampling errors from this calculation.

- (4) Analysis for vinyl chloride is required only for ground water systems that have detected one or more of the following two-carbon organic compounds: Trichloroethylene, Tetrachloroethylene, 1,2-dichloroethane, 1,1,1-trichloroethane, cis-1,2-dichloroethylene, trans-1,2-dichloroethylene, or 1,1-dichloroethylene. The analysis for vinyl chloride is required at each distribution or entry point at which one or more of the two-carbon organic compounds were found. If the first analysis does not detect vinyl chloride, the department may reduce the frequency of vinyl chloride monitoring to once every three years for that sample location or other sample locations which are more representative of the same source. Surface water systems may be required to analyze for vinyl chloride at the discretion of the department.

- (5) The department or individual public water systems may composite up to five samples for one or more public water systems. Compositing of samples is to be done in the laboratory by the procedures listed in this Subparagraph. Samples should be analyzed within 14 days of collection. If any organic contaminant listed in 10 NCAC 10D .1639(a) is detected in the original composite sample, a sample from each source that made up the composite sample must be reanalyzed individually within 14 days from sampling. The sample for reanalysis cannot be the original sample but can be a duplicate sample. If duplicates of the original samples are not available, new samples must be taken from each source used in the original composite and analyzed for

volatile organic chemicals. Reanalysis must be accomplished within 14 days of the second sample. To composite samples, the following procedure shall be applied:

- (i) To composite samples prior to GC analysis:

(A) Add 5-ml or equal larger amounts of each sample (up to 5 samples are allowed) to a 25-ml glass syringe. Special precautions must be made to maintain zero headspace in the syringe.

(B) The samples must be cooled at 4/C during this step to minimize volatilization losses.

(C) Mix well and draw out a 5-ml aliquot for analysis.

(D) Follow sample introduction, purging, and desorption steps described in the method.

(E) If less than five samples are used for compositing, a proportionately smaller syringe may be used.

- (ii) To composite samples prior to GC/MS analysis:

(A) Inject 5-ml or equal larger amounts of each sample (up to 5 samples are allowed) into a 25-ml purging device using the sample introduction technique described in the method.

(B) The total volume of the sample in the purging device must be 25 ml.

(C) Purge and desorb as described in the method.

- (6) The monitoring frequency for sampling specified in Paragraph (e)(1) of this Rule, shall be as follows:

- (i) For ground water systems:

(A) When volatile organic chemicals are not detected in the first sample (or any subsequent samples that may be taken) and the system is not vulnerable as defined in Paragraph (e)(6)(iv) of this Rule, monitoring shall be repeated every five years.

(B) When volatile organic chemicals are not detected in the first sample (or any subsequent sample that may be taken) and the system is vulnerable as defined in Paragraph (e)(6)(iv) of this Rule, monitoring must be repeated every 3 years for systems with more than 500 connections, and monitoring must be repeated every 5 years for systems with less than 500 connections.

- (C) If volatile organic chemicals are detected in the first sample (or any subsequent sample that may be taken), regardless of vulnerability, monitoring must be repeated every 3 months, as required under Paragraph (e)(1) of this Rule.
- (ii) For surface water systems:
- (A) When volatile organic chemicals are not detected in the first year of quarterly sampling (or any other subsequent sample that may be taken) and the system is not vulnerable as defined in Paragraph (e)(6)(iv), monitoring is only required when the department deems it necessary.
- (B) When volatile organic chemicals are not detected in the first year of quarterly sampling (or any other subsequent sample that may be taken) and the system is vulnerable as defined in Paragraph (e)(6)(iv) of this Rule, monitoring must be repeated every 3 years for systems with more than 500 connections and monitoring must be repeated every 5 years for systems with less than 500 connections.
- (C) When volatile organic chemicals are detected in the first year of quarterly sampling (or any other subsequent sample that may be taken), regardless of vulnerability, monitoring must be repeated every 3 months as required under Paragraph (e)(1) of this Rule.
- (iii) The department may reduce the frequency of monitoring to once per year for a groundwater system or surface water system detecting volatile organic chemicals at levels consistently less than the maximum contaminant level for three consecutive years.
- (iv) Vulnerability of each public water system shall be determined by the department based upon an assessment of previous monitoring results, the number of persons served by public water system, proximity of a smaller system to a larger system, proximity to commercial or industrial use, disposal, or storage of volatile synthetic organic chemicals, and protection of the water source.
- (v) A system is deemed to be vulnerable for a period of 3 years after any positive measurement of one or more contaminants listed in either 10 NCAC 10D .1639(a) or .1638(e) except for trihalomethanes and other demonstrated disinfection by-products.
- (7) Compliance with 10 NCAC 10D .1639(a) shall be determined based on the results of running annual average of quarterly sampling for each sampling location. If one location's average is greater than the maximum contaminant level, then the system shall be deemed to be out of compliance. If a public water system has a distribution system separable from other parts of the distribution system with no interconnections, only that part of the system that exceeds any maximum contaminant level as specified in 10 NCAC 10D .1639(a) will be deemed out of compliance. The department may reduce the public notice requirement to that portion of the system which is out of compliance. If any one sample results would cause the annual average to be exceeded, then the system shall be deemed to be out of compliance immediately. For systems that only take one sample per location because no volatile organic chemicals were detected, compliance shall be based on that one sample.
- (8) Analyses made to determine compliance with this Paragraph shall be made in accordance with methods adopted by the United States Environmental Protection Agency and codified as 40 C.F.R. 141.24(g)(10) which are hereby adopted by reference in accordance with G.S. 150B-14(c). A list of these methods is available from the Public Water Supply Branch, Environmental Health Section, Division of Health Services, P. O. Box 2091, Raleigh, NC 27602-2091.
- (9) The department may accept monitoring data collected after January 1, 1983, for purposes of compliance, if the data is consistent with the other requirements in (e) of this Rule. The department may use that data to represent the initial monitoring if the system is determined by the department not to be vulnerable under the requirements of this Rule. In addition, the results of the United States Environmental Protection Agency's Ground Water Supply Survey may be used in a similar manner for systems supplied by a single well.

(10) The department may increase required monitoring where necessary to detect variations within the system.

(11) A water supplier for a public water system supplying fewer than 150 service connections may comply with the monitoring requirements by sending a letter to the department specifying that the system is available for sampling. No samples may be sent to the department unless so requested. The letter must be sent to the Department no later than January 1, 1991.

(f) The department may determine compliance or initiate enforcement action based upon analytical results and other information compiled by their sanctioned representatives and agencies.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

.1628 MONITORING OF CONSECUTIVE PUBLIC WATER SYSTEMS

(c) The department may exempt a public water system that obtains treated water from another public water system serving more than 10,000 persons from conducting compliance monitoring for the organic chemicals under 10 NCAC 10D .1639(a), provided that the system from which the water is obtained has conducted the analyses required under 10 NCAC 10D .1639(a). Exempted public water systems which disinfect are required to monitor under 10 NCAC 10D .1638.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

.1638 SPECIAL MONITORING FOR ORGANIC CHEMICALS

(a) All community and non-transient, non-community water systems shall begin monitoring for the contaminants listed in Paragraph (e) in this Rule as follows:

- (2) A system serving from 3,300 to 10,000 persons shall begin monitoring no later than January 1, 1989.
- (3) A system serving less than 3,300 shall begin monitoring no later than January 1, 1991.

(b) Surface water systems shall sample in the distribution system representative of each water source or at entry points to the distribution system; the minimum number of sam-

ples is one year of quarterly samples per water source. Ground water systems shall sample at points of entry to the distribution system representative of each well; the minimum number of samples is one sample per entry point to the distribution system.

(e) Community water systems and non-transient, non-community water systems shall monitor for EDB or DBCP only if the department determines they are vulnerable to contamination by either or both of these substances. For the purpose of this Paragraph, a vulnerable system means a system which is potentially contaminated by EDB and DBCP, including surface water systems where these

two compounds are applied, manufactured, stored, disposed of, or shipped upstream, and for ground-water systems in areas where the compounds are applied, manufactured, stored, disposed of, or shipped in the ground-water recharge basin, or for ground-water systems that are in proximity to underground storage tanks that contain leaded gasoline.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

.1640 REPORTING FOR ORGANIC CHEMICALS

(a) The requirements of this Rule only apply to the contaminants listed in 10 NCAC 10D .1638.

(b) The water supplier for a community water system or non-transient, non-community water system who is required to monitor under 10 NCAC 10D .1638 shall send a copy of the results of such monitoring within 30 days of receipt and any public notice under Paragraph (d) of this Rule to the department.

(c) The department shall furnish the following information to the administrator for each sample analyzed:

- (1) Results of all analytical methods, including negatives;
- (2) Name and address of the system that supplied the sample;
- (3) Contaminant(s);
- (4) Analytical method(s) used;
- (5) Date of sample;
- (6) Date of analysis.

(d) The water supplier shall notify persons served by the system of the availability of the results of sampling by including a notice in the first set of water bills issued after the receipt of the results or written notice within three months. The notice shall identify a person and telephone number to contact for information on the monitoring results.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

.1641 POINT-OF-ENTRY AND OTHER TREATMENT DEVICES

(a) Public water systems may use point-of-entry devices to comply with maximum contaminant levels only if they meet the requirements of this Rule.

(b) The water supplier shall operate and maintain the point - of - entry treatment system.

(c) The water supplier shall develop a monitoring plan and obtain department approval of the plan before point-of-entry devices are installed for compliance. The approved plan shall provide health protection equivalent to central water treatment. "Equivalent" means that the water would meet all maximum contaminant levels in this Subchapter and would be acceptable quality similar to water distributed by a well operated central treatment plant. In addition to monitoring for volatile organic chemicals, monitoring shall include physical measurements and observations such as total flow treated and mechanical condition of the treatment equipment.

(d) Effective technology must be properly applied under a plan approved by the department and the microbiological safety of the water must be maintained as follows:

- (1) Adequate certification of performance, field testing, and, if not included in the certification process a rigorous engineering design review of the point-of-entry devices shall be provided; and
- (2) The design and application of the point-of-entry devices shall consider the tendency for increase in heterotrophic bacteria concentrations in water treated with activated carbon. It may be necessary to use frequent backwashing, post-contractor disinfection, and Heterotrophic Plate Count monitoring to ensure that the microbiological safety of the water is not compromised.

(e) All consumers shall be protected. Every building connected to the system shall have a point-of-entry device installed, maintained, and adequately monitored. The rights and responsibilities of the public water system consumer shall be conveyed with title upon sale of property.

(f) Public water systems shall not use bottled water or point-of-use devices to achieve compliance with a maximum contam-

inant level. Bottled water or point-of-use devices may be used on a temporary basis to avoid an unreasonable risk to health.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 141.

SECTION .2500 - VARIANCES AND EXEMPTIONS

.2513 BOTTLED WATER AND POINT-OF-USE DEVICES

(a) The department may require a public water system to use bottled water or point-of-use devices as a condition for granting a variance or exemption from the requirements of 10 NCAC 10D.

(b) Public water systems that use bottled water as a condition of obtaining a variance or exemption shall meet the following requirements in either paragraph (b)(1) or (b)(2) of this Rule in addition to requirements in Paragraph (b)(3) of this Rule:

- (1) The water supplier shall develop and operate a monitoring program that provides reasonable assurances that the bottled water meets all maximum contaminant levels. The water supplier must monitor a representative sample of the bottled water for all contaminants regulated under 10 NCAC 10D .1639(a) the first quarter that it supplies the bottled water to the public, and annually thereafter. Results of the monitoring program shall be provided to the department annually; or
- (2) The public water system shall receive a certification from the bottled water company that the bottled water supplied has been taken from an "approved source" as defined in 21 C.F.R. 129.3(a) which is hereby adopted by reference in accordance with G.S. 150B-14(c); that the bottled water company has conducted monitoring in accordance with 21 C.F.R. 129.80(g)(1) through (3) which is hereby adopted by reference in accordance with G.S. 150B-14(c); and the bottled water does not exceed any maximum contaminant levels or quality limits as set out in 21 C.F.R. 103.35, 110, and 129 which are hereby adopted by reference in accordance with G.S. 150B-14(c). The public water system shall provide the certification to the department the first quarter after it supplies bottled water and annually thereafter; and

- (3) The water supplier shall provide sufficient quantities of bottled water to every person supplied by the public water system, via door-to-door bottled water delivery.

(c) Public water systems that use point-of-use devices as a condition for receiving a variance or exemption must meet the following requirements:

- (1) The water supplier shall operate and maintain the point-of-use treatment system.
- (2) The water supplier shall develop a monitoring plan and obtain department approval for the plan before point-of-use devices are installed for compliance. The monitoring plan shall provide health protection equivalent to a monitoring plan for central water treatment.
- (3) Effective technology must be properly applied under a plan approved by the department and the microbiological safety of the water must be maintained as follows:
 - (A) Adequate certification of performance, filed testing, and, if not included in the certification process, a rigorous engineering design review of the point-of-use devices shall be provided; and
 - (B) The design and application of the point-of-use devices shall consider the tendency for increase in heterotrophic bacteria concentrations in water treated with activated carbon. It may be necessary to use frequent backwashing, post-contractor disinfection, and Heterotrophic Plate Count monitoring to ensure that the microbiological safety of the water is not compromised.
- (4) All consumers shall be protected. Every building connected to the system shall have a point-of-use device installed, maintained, and adequately monitored. The rights and responsibilities of the public water system consumer shall be conveyed with title upon sale of property.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 142.

.2514 VARIANCES FOR SYNTHETIC ORGANIC CHEMICALS

(a) Removal using packed tower aeration and removal using granular activated carbon (except for vinyl chloride) are the best available technology for achieving compliance with the

maximum contaminant levels for synthetic organic chemicals.

(b) Community water systems and non-transient, non-community water systems shall install and/or use any treatment method identified in Paragraph (a) as a condition for granting a variance except as provided in Paragraph (c). If, after the system's installation of the treatment method, the system cannot meet the maximum contaminant level, that system shall be eligible for a variance.

(c) If a system can demonstrate through comprehensive engineering assessments, which may include pilot plant studies, that the treatment methods identified in Paragraph (a) would only achieve a de minimis reduction in contaminants, the department may issue a schedule of compliance that requires the system being granted the variance to examine other treatment methods as a condition of obtaining the variance.

(d) If the department determines that a treatment method examined under Paragraph (c) of this Rule is technically feasible the department may require the system to install and/or use that treatment method in connection with a compliance schedule. The department's determination shall be based upon studies by the system and other relevant information.

Authority G.S. 130A-311 through 130A-327; P.L. 93-523; 40 C.F.R. 142.

SECTION .0300 - AIR POLLUTION EMERGENCIES

.0302 EPISODE CRITERIA

Conditions justifying the proclamation of an air pollution alert, air pollution warning, or air pollution emergency shall be deemed to exist whenever the director determines that the accumulation of air contaminants in any place is attaining or has attained levels which could, if such levels are sustained or exceeded, lead to a threat to the health of the public. In making this determination, the director shall be guided by the following criteria:

- (2) Alert. The alert level is that concentration of pollutants at which first stage control actions are to begin. The director shall proclaim an alert when any of the following levels is reached at any monitoring site:

(g) PM10--350 ug/m³; 24-hour average; and meteorological conditions are such that pollutant concentrations can be expected to remain at these levels for 12 or more hours or increase or, in the case of ozone, the situation is likely to reoccur within the next 24-hours unless control actions are taken.

- (3) Warning. The warning level indicates that air quality is continuing to degrade and that additional abatement actions are necessary. The director shall proclaim a warning when any one of the following levels is reached at any monitoring site:

(g) PM10--420 ug/m³; 24-hour average; and meteorological conditions are such that pollutant concentrations can be expected to remain at these levels for 12 or more hours or increase or, in the case of ozone, the situation is likely to reoccur within the next 24 hours unless control actions are taken.

- (4) Emergency. The emergency level indicates that air quality is continuing to degrade to a level that should never be reached and that the most stringent control actions are necessary. The Secretary of the Department of Natural Resources and Community Development with the concurrence of the Governor shall declare an emergency when any one of the following levels is reached at any monitoring site:

(f) nitrogen dioxide -- 3000 ug·m³ (1.6 p.p.m.), one-hour average; 750 ug/m³ (0.4 p.p.m.), 24-hour average;

(g) PM10--500 ug/m³; 24-hour average.

Statutory Authority G.S. 143-215.3 (a) (1); 143-215.3 (a) (11).

.0304 PREPLANNED ABATEMENT PROGRAM

(a) Any person who is responsible for the operation of a source of air pollution that is described in Regulations .0305, .0306, or .0307 of this Section, or that emits 100 tons per year or more of any one pollutant shall prepare a plan to reduce the emissions of air pollutants into the outdoor atmosphere during periods of an air pollution episode. The plan shall be consistent with good industrial practices and safe operating procedures. ~~The plan shall be~~

submitted by April 20, 1972, to the commission for review and approval.

Statutory Authority G.S. 143-215.3 (a) (1); 143-215.3 (a) (11).

SECTION .0400 - AMBIENT AIR QUALITY STANDARDS

.0403 TOTAL SUSPENDED PARTICULATES

(a) The ambient air quality standards for total suspended particulate matter are:

- (1) 75 micrograms per cubic meter annual geometric mean,
- (2) 150 micrograms per cubic meter maximum 24-hour concentration not to be exceeded more than once per year.

(b) Sampling and analysis shall be in accordance with procedures in Appendix B of 40 C.F.R Part 50 or equivalent methods established under 40 CFR Part 53.

Statutory Authority G.S. 143-215.3 (a) (1); 143-215.107 (a) (3).

.0409 PARTICULATE MATTER

(a) The ambient air quality standards for particulate matter are:

- (1) 150 micrograms per cubic meter ($\mu\text{g}/\text{m}^3$), 24-hour average concentration; and
- (2) 50 micrograms per cubic meter ($\mu\text{g}/\text{m}^3$), annual arithmetic mean.

These standards are attained when the expected number of days per calendar year with a 24-hour average concentration above 150 $\mu\text{g}/\text{m}^3$ is equal to or less than one or when the expected annual arithmetic mean concentration is less than or equal to 50 $\mu\text{g}/\text{m}^3$, as determined in accordance with Appendix K of 40 CFR Part 50.

(b) For the purpose of determining attainment of the standards in Paragraph (a) of this Regulation, particulate matter shall be measured as PM10 (particles with an aerodynamic diameter less than or equal to a nominal ten micrometers) by:

- (1) a reference method based on Appendix J of 40 CFR Part 50 and designated in accordance with 40 CFR Part 53; or
- (2) an equivalent method designated in accordance with 40 CFR Part 53.

Statutory Authority G.S. 143-215.3 (a) (1); 143-215.107 (a) (3).

SECTION .0500 - EMISSION CONTROL STANDARDS

.0501 COMPLIANCE WITH EMISSION CONTROL STANDARDS

(c) Testing to determine compliance shall be in accordance with the following procedures, except as may be otherwise required in Regulations .0524, .0525, and .0604 of this Subchapter:

(16) Particulate testing on steam generators that utilize soot blowing as a routine means for cleaning heat transfer surfaces shall be conducted so that the contribution of the soot blowing is represented as follows:

(A) If the soot blowing periods are expected to represent less than 50 percent of the total particulate emissions, one of the test runs shall include a soot blowing cycle.

(B) If the soot blowing periods are expected to represent more than 50 percent of the total particulate emissions then two of the test runs shall each include a soot blowing cycle.

Under no circumstances shall all three test runs include soot blowing. The average emission rate of particulate matter is calculated by the equation:

$$E_{avg} = E_S \frac{S(A + B)}{A R} + E_N \left(\frac{R}{R} - \frac{S}{A R} \right)$$

E_{avg} equals the average emission rate in pounds per million Btu for daily operating time. E_S equals the average emission rate in pounds per million Btu of sample(s) containing soot blowing. E_N equals the average emission rate in pounds per million Btu of sample(s) with no soot blowing. A equals hours of soot blowing during sample(s). B equals hours without soot blowing during sample(s) containing soot blowing. R equals average hours of operation per 24 hours. S equals average hours of soot blowing per 24 hours. If large changes in boiler load or stack flow rate occur during soot blowing, other methods of prorating the emission rate may be considered more appropriate; for these tests the director or his designee may approve an alternate method of prorating.

(17) Emissions of volatile organic compounds shall be measured by the appropriate test procedure in Section .0900 of this Subchapter.

(18) Upon prior approval by the director or his delegate, test procedures different from those described in this Regulation may be used. Furthermore, the director or his delegate has the option to prescribe alternate test procedures on an

individual basis when he considers that the action is necessary to secure reliable test data. In the case of sources for which no test method is named, the director or his delegate has the authority to prescribe or approve methods on an individual basis.

(g) ~~The version of the methods referred to in Paragraph (c) of this Regulation is that which appeared in the Code of Federal Regulations as of November 4, 1986.~~

Statutory Authority G.S. 143-215.3 (a) (1); 143-215.107 (a) (5); 143-215.68.

SUBCHAPTER II - SERVICE TO LOCAL GOVERNMENT

SECTION .0200 - LOCAL GOVERNMENT EMPLOYMENT POLICIES

.0203 EQUAL EMPLOYMENT OPPORTUNITY

(a) Affirmative Action:

- (4) Discrimination on the basis of age, sex or ~~physical disability~~ handicapping conditions is prohibited except where specific age, sex or physical requirements constitute a bona fide occupational qualification necessary for job performance.

- (12) ~~The Office of State Personnel will conduct periodic on-site review of local affirmative action programs to evaluate success in meeting policy requirements and to provide assistance in problem areas. The Office of State Personnel~~

will be available to provide technical assistance in meeting policy requirements in accordance with G.S. 126-10.

(c) Appeal of Discrimination:

- (1) Any applicant or employee who believe that employment, promotion, training, transfer or salary increase was denied or that demotion, transfer, lay-off or termination was forced because of race, color, national origin or political or religious affiliations may appeal to the State Personnel Commission. Appeal may also be filed if discrimination on the basis of age, sex, or ~~physical disability~~ handicapping condition did not result from bona fide occupational qualifications.

Statutory Authority G.S. 126-10; 126-16; 168; Title VII of the Civil Rights Act as amended by the Equal Employment Opportunity Act of 1972, effective March 24, 1972; Federal Standards for a Merit System of Personnel Administration; 5 U.S.C. 1501-1508; P.L. 95-256, April 6, 1978.

SUBCHAPTER IC - PERSONNEL ADMINISTRATION

SECTION .0200 - GENERAL EMPLOYMENT POLICIES

.0202 EQUAL EMPLOYMENT OPPORTUNITY

(a) It is the policy of the State of North Carolina that neither race, religion, color, creed, national origin, sex, age, political affiliation, nor ~~physical disability~~ handicapping condition is to be considered in the:

- (1) recruitment and employment of new employees of the state;
- (2) promotion, demotion, transfer, lay-off, termination or selection of employees of the state for training and development;
- (3) establishment of rates of pay including the awarding of salary adjustments and/or annual salary increments.

(b) Special provisions relative to age. Equal employment opportunity as to age applies only to persons between 40 and 70 years of age. State and federal laws forbid employment discrimination on the basis of age for these persons. It is unlawful "to fail or refuse to hire or to discharge any individual or otherwise discriminate against any individual with respect to his compensation, terms, conditions, or privileges of employment, because of such individual's age."

(c) Special provisions relative to handicap.

(1) Equal employment opportunity for persons with disabilities includes the making of a reasonable accommodation to the known physical limitations of a qualified handicapped applicant or employee who would be able to perform the essential duties of the job if such accommodation is made. This may include:

- (A) making facilities used by employees readily accessible to and usable by such person;
- (B) job restructuring (reassigning non-essential duties and/or using part-time or modified work schedules);
- (C) acquisition or modification of equipment or devices;
- (D) provision of readers or interpreters; and/or other similar actions. Agencies are required to make such adjustments for the known limitations of otherwise qualified handicapped applicants and employees, unless it can be demonstrated that a particular adjustment or alteration would impose an undue hardship on the operation of the agency.

(2) Whether an accommodation is reasonable must depend on the facts in each case. Factors to be considered in determining this include:

- (A) the nature and cost of the accommodation needed;
- (B) the type of the agency's operation, including the composition and structure of its work force; and
- (C) the overall size of the agency or particular program involved, with respect to number of employees, number and type of facilities, and size of budget.

(d) Bona Fide Occupational Qualifications.

(1) Age, sex or physical requirements may be considered if they constitute a bona fide occupational qualification necessary for job performance in the normal operations of the agency. Whether such a requirement is a bona fide occupational qualification will depend on the facts in each case. This exemption will be construed very narrowly and the agency will have the burden of proving the exemption is justified.

(2) Physical fitness requirements based upon preemployment physical examinations relating to minimum standards

for employment may be a reasonable employment factor, ~~other than age or sex, provided however~~ that such standards are reasonably necessary for the specific work to be performed and are uniformly and equally applied to all applicants for the category, regardless of age or sex.

(3) A differentiation based on a physical examination may be recognized as reasonable in certain job situations which necessitate stringent physical requirements due to inherent occupational factors such as the safety of the individual employees or of other persons in their charge, or those occupations which by nature are particularly hazardous. Job classifications which require rapid reflexes or a high degree of speed, coordination, dexterity and endurance would fall in this category.

(4) To establish age, sex or physical requirements as a bona fide occupational qualification, it will be necessary to submit a recommendation to the Office of State Personnel setting forth all facts and justification as to why the requirement should be considered as an employment factor in each of the classifications in question.

(c) ~~Effective July 1, 1977, direct appeal to the State Personnel Commission on the basis of political affiliation is provided only to employees with five or more years of immediate continuous state service or in positions subject to competitive service. Effective July 1, 1985, direct appeal to the State Personnel Commission on the basis of political affiliation discrimination is provided only to employees who meet the standards for continuous state service set out in G.S. 126-5(c)(1), or to employees who served or were separated from positions subject to competitive service.~~

(f) Special provisions Relative to Communicable and Infectious Diseases.

(1) Persons with communicable or infectious disease, including Acquired Immune Deficiency Syndrome (AIDS), are handicapped if the disease results in an impairment which substantially limits one or more major life activities. All of the statutory provisions relative to persons with handicaps are applicable to persons with communicable and infectious diseases, including the requirement for a reasonable accommodation to the known limitations of an

otherwise qualified applicant or employee.

- (2) It is not discriminatory action to fail to hire, transfer, or promote, or to discharge a handicapped person because the person has a communicable disease which would disqualify a non-handicapped person from similar employment. However, such action may be taken on that basis only when it has been determined necessary to prevent the spread of the communicable or infectious disease. There must be documentation of consultation with private physicians and or public health officials in arriving at the determination. Concern for other employees who may fear working with the infected co-worker must never be the basis for the action, in the absence of a medically documented health hazard to other persons.
- (3) It must be remembered that AIDS, unlike most communicable diseases, is transmitted only by exchange of body fluids through sexual contact, sharing of needles and syringes, or transfusion of infected blood. According to the U.S. Department of Health and Human Services, Public Health Service, no cases have been found where the AIDS virus has been transmitted by casual contact, and there is on evidence that it can be transmitted by casual contact.

There is no evidence that employing a person with AIDS would present a health hazard to other persons in the usual work place.

Statutory Authority G.S. 126-4; 126-5(c)(1)(2)(3)(4); 126-16; 126-36; 168A-5(b)(3); P.L. 92-261, March 24, 1972.

SUBCHAPTER 1J - EMPLOYEE RELATIONS

SECTION .0500 - EMPLOYEE GRIEVANCES

.0504 DISCRIMINATION

Any applicant for state employment or state employee or former state employee who has reason to believe that employment, promotion, training, salary adjustment, a merit salary increment or transfer was denied him/her or that demotion, lay-off or termination of employment was forced upon him/her because of race, religion, color, creed, national origin, sex, age, political affiliation, or ~~physical disability~~ handicapping condition except where specific age, sex or physical requirements constitute a bona fide occupational qualification necessary to proper and efficient administration, shall have the right to appeal directly to the State Personnel Commission within 30 days of the alleged discriminatory action.

Statutory Authority G.S. 126-36; 126-38; 168A-2.

Upon request from the adopting agency, the text of rules will be published in this section.

When the text of any adopted rule is identical to the text of that as proposed, adoption of the rule will be noted in the "List of Rules Affected" and the text of the adopted rule will not be republished.

Adopted rules filed by the Departments of Correction, Revenue and Transportation are published in this section. These departments are not subject to the provisions of G.S. 150B, Article 2 requiring publication of proposed rules.

TITLE 17 - DEPARTMENT OF REVENUE

CHAPTER 1 - DEPARTMENTAL RULES

SUBCHAPTER 1C - GENERAL ADMINISTRATION

SECTION .0400 - INTEREST REQUIREMENTS

.0402 ESTABLISHED INTEREST RATES

(h) For the calendar year 1988, the Secretary of Revenue under the authority of Subsection (i) of G.S. 105-241.1 has established on November 30, 1987 an interest rate of 9 percent per annum. The computation shall be at the rate of 3/4 percent per month or fraction thereof.

SUBCHAPTER 6B - INDIVIDUAL INCOME TAX

SECTION .0300 - PERSONAL EXEMPTION

.0315 PARAPLEGICS

An additional one thousand and one hundred dollars (\$1,100.00) exemption may be claimed for the taxpayer or the taxpayer's dependent who is a paraplegic or who is disabled to the extent that he must use a wheelchair to move about and to function effectively or who is a double-leg amputee above the knee. This

exemption may be claimed for a qualified spouse who meets the requirements for a dependent even though a dependency exemption may not be claimed. A supporting statement from a physician must be attached to the return.

*History Note: Statutory Authority G.S. 105-149(a)(8d); 105-262;
Eff. April 19, 1981;
Amended Eff. February 1, 1988.*

SECTION .0800 - INSTALLMENT SALES

.0801 GENERAL

(b) Those federal rules and regulations which are not deemed to be contrary to the context and intent of State law will be followed on installment sales and reposessions and dispositions on installment sales. Exceptions to federal rules and regulations include: State and federal differ on sales between related parties, and State law has no provision for unstated interest on installment sales.

When an individual moves into North Carolina from a state having an income tax law after having made an election to report a gain to his former state of residence on the installment basis for income tax purposes, he must include in his North Carolina income that portion of each collection received after becoming a North Carolina resident which represents gain. (When the individual's former state does not have an income tax law, he does not have to report any portion of the gain from an installment sale made prior to moving to North Carolina.)

When an individual moves out of North Carolina after having made an election to report a gain on the installment basis he must continue to file a North Carolina return and report for income taxation each year his gain from the installment sale. If this gain should be taxed by the taxpayer's new state of residence, North Carolina does not allow any tax credit.

*History Note: Statutory Authority G.S. 105-141(a); 105-142(f); 105-144; 105-262;

SECTION .0900 - SALE OF PRINCIPAL RESIDENCE

.0902 RULES

(c) The new residence must be used as the individual's principal residence within two

years before or after the sale of the old residence.

The replacement period is suspended during any time that the taxpayer (or his spouse if the old residence and the new residence are each used by the taxpayer and his spouse as their residence) serves on extended active duty with the Armed Forces of the United States after the date of sale of the old residence. In no case, however, may the period be suspended longer than four years after the date of the sale of the old residence. The replacement period is suspended for members of the Armed Forces until one year after the last day on which they are either stationed outside of the United States, or at a remote site within the United States, except that the replacement period may not exceed eight years after the date of sale of the old residence. This eight year suspension applies to those residences sold after July 18, 1984.

The replacement period for purchasing a new principal residence to postpone the tax on the gain from the sale of a principal residence is suspended up to four years after the date of sale during the time an individual has his tax home outside of the United States.

An individual will be allowed to postpone the taxing of gain on the sale of more than one principal residence within the replacement period if the proceeds are reinvested in a new principal residence and he relocates for employment purposes and qualifies to deduct moving expenses.

SECTION .2200 - TRAVEL EXPENSES

.2203 FEDERAL PRACTICE TO BE FOLLOWED

In determining whether or not travel, entertainment, and business gift expenses are allowable deductions, the department follows federal rules and regulations in effect during the income year which are not deemed to be contrary to the context and intent of state law; however, North Carolina law does not subject unreimbursed business meals and entertainment expenses to the 80 percent limitation required for federal tax purposes, nor are unreimbursed employee business expenses subject to the two percent adjusted gross income floor required for federal tax purposes.

*History Note: Statutory Authority G.S. 105-147(1); 105-147(2); 105-262;
Eff. February 1, 1976;
Amended Eff. February 1, 1988; June 1, 1982.*

SECTION .2300 - EDUCATION EXPENSES

.2302 FEDERAL PRACTICE TO BE FOLLOWED

In determining whether or not education and training expenses are allowable deductions for state income tax purposes, the department follows those federal rules and regulations in effect during the income year which are not deemed to be contrary to the context and intent of state law, except that North Carolina has no provision for reducing such expenses by two percent of adjusted gross income as required for federal tax purposes. In addition, for state income tax purposes, all ordinary and necessary expenses of attending summer school are deductible up to two hundred and fifty dollars (\$250.00) for a teacher, substitute teacher, principal, or superintendent of the public schools of this state even if they are not allowable as deductions for federal income tax purposes.

Form D-453, "Schedule of Moving Expenses," or federal Form 3903, should be filed with the individual return, Form D-400, when the moving expense deduction is claimed.

SECTION .2500 - RETIREMENT PLANS

.2502 FEDERAL PRACTICE TO BE FOLLOWED

(a) The federal rules and regulations pertaining to the self-employed retirement con-

tributions deduction will be followed except where such rules and regulations are deemed to be contrary to the context and intent of state law. Generally, a part-year resident or non-resident owner-employee's deduction for contributions to a Keogh or HR-10 plan is allowed only to the extent that the earned income from the business that has the plan is taxable to North Carolina. A taxpayer is not required to attach to his North Carolina income tax return copies of any forms or schedules pertaining to his self-employed retirement contribution deduction which he is required to file with the Internal Revenue Service; however, copies of such forms must be furnished if requested by the Department of Revenue.

SECTION .2900 - CASUALTY AND THEFT LOSSES

.2901 GENERAL

(c) A casualty is the complete or partial destruction of loss of property resulting from an identifiable event that is damaging to property, and is sudden, unexpected, or unusual in nature. A sudden event is one that is swift and precipitous and not gradual or progressive. An unexpected event is one that is ordinarily unanticipated and that occurs without the intent of the one who suffers the loss. An unusual event is one that is extraordinary and nonrecurring, does not commonly occur during the activity in which the taxpayer was engaged when the damage occurred, and does not commonly occur in the course of day-to-day living. Casualty losses do not include progressive deterioration through a steadily operating cause and damage from a normal process.

(d) The term "theft" generally refers to the felonious taking and removing of money or property with intent to deprive the rightful

owner of it. Theft includes, but is not limited to, larceny, robbery, and embezzlement.

(e) A casualty loss may be claimed only by the owner of the property at the time the loss occurred. Payment for destroyed or lost property by a person other than the owner of the property will not entitle that person to claim a casualty loss. Where there is a life estate and the property involved is damaged or destroyed there may be a casualty loss deduction which may be claimed by the life tenant and remainderman. The casualty loss deduction which may be claimed by the life tenant is based on the life tenant's interest in that part of the property damaged or destroyed after taking into consideration the fair market value of the property before and after the loss, and it cannot exceed the life tenant's basis after adjustment for capital improvements and depreciation. The amount allowable as a casualty loss deduction by the remainderman is based on the remainderman's interest (as of the date the loss occurred) in that portion of the property damaged or destroyed.

When property is owned jointly, the loss deductible by each co-owner is limited to the amount of the allowable casualty loss deduction multiplied by his percentage of ownership. If the property damaged or destroyed is real property owned by a husband and wife as tenants by the entirety, the allowable casualty loss deduction is divided equally between husband and wife.

(f) Losses such as those described in G.S. 105-147(9)a. and b. will be allowed to the same extent allowed for federal income tax purposes, except where federal rules and regulations may be contrary to the context and intent of State law. In computing the casualty loss deduction, State law does not require that the amount of each casualty loss be reduced by one hundred dollars (\$100.00) or that the total losses for the year be reduced by ten percent of adjusted gross income.

SECTION .3300 - ACCOUNTING PERIODS AND METHODS

.3303 ACCOUNTING PERIODS

(b) Initial income year:

- (1) An individual having no accounting period or not keeping books must compute his taxable income on a cal-

endar year basis unless he has elected to compute his income on the variable period of 52 or 53 weeks for federal income tax purposes. After filing his initial return, an individual may change his income subject to the conditions set forth in G.S. 105-142 as explained in 17 NCAC 6B .3304.

- (2) A newly-formed partnership may adopt the same taxable year as that of its partners who own an aggregate interest in partnership profits and capital of greater than 50 percent unless the partnership establishes a business purpose for having a different year. If partners owning the majority interest have different tax years, the partnership must adopt the same tax year as that of its principal partners. (A principal partner is a partner who has at least a five percent interest in partnership profits or capital.) Where neither condition is met, a partnership is required to adopt a calendar year as its tax year.
- (3) In filing its first return a trust may choose either a calendar year or a fiscal year as its annual accounting period for income tax purposes.

An estate, in filing its first return, may choose the same accounting period as the decedent had (whether a calendar year or fiscal year), or may choose a calendar year or fiscal year regardless of the period used by the decedent.

If the estate elects to use the same accounting period as that used by the decedent, the first return filed will be for a short period to fill out the unexpired full year of the decedent. No annualizing is required for this short period, however, and the full personal exemption may be claimed on the estate return as if the period were for a full year.

History Note: Statutory Authority G.S. 105-135(5); 105-142(a); 105-142(b); 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988.

SECTION .3500 - PARTNERSHIPS

.3504 ACCOUNTING PERIOD

For taxable years beginning on or after January 1, 1987, all partnerships must use the same taxable year as that of its partners who own an aggregate interest in partnership profits and capital of greater than 50 percent unless the partnership establishes a business purpose for having a different year. If partners owning

the majority interest have different tax years, the partnership must adopt the same tax year as that of its principal partners. (A principal partner is a partner who has at least a five percent interest in partnership profits or capital.) Where neither condition is met, a partnership is required to adopt a calendar year as its tax year.

A partnership that must change its taxable year to conform to the above requirements is required to file a return for the short taxable year that begins with the first day of its current taxable year beginning after 1986. For example, a partnership with a taxable year ending on September 30, 1987, that is required to change to a calendar taxable year has a short tax year beginning on October 1, 1987, and ending on December 31, 1987. The individual partners of a partnership which is required to file a short taxable year return are required to report the amount of net income or loss for the short taxable year in income currently and are not allowed to elect to include such net income in income ratably over the first four tax years beginning after 1986 as allowed for federal tax purposes.

Generally, a partnership's tax year continues after the death of a partner, the entry of a new partner, or the liquidation, sale, or exchange of a partner's interest unless there is a termination of the partnership.

History Note: Statutory Authority G.S. 105-142(a); 105-142(b); 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988.

SECTION .3700 - ESTATES AND TRUSTS

.3712 DISTRIBUTIONS TO BENEFICIARIES

(b) Estates and complex trusts are allowed under G.S. 105-161(d)(6) to deduct the amount of income of the taxable year which is required to be distributed currently, and any other amounts properly paid, credited or required to be distributed for the taxable year.

The amount of income required to be distributed for the taxable year includes any amount required to be distributed which may be paid out of income or corpus to the extent that it is paid out of income of the taxable year.

Other amounts include all amounts properly paid, credited, or required to be distributed during the taxable year other than income required to be distributed currently, including: (1) amounts distributed in the discretion of the fiduciary, (2) the payment of an annuity to the

extent not paid out of income of the taxable year, and (3) a distribution of property in kind.

Distributions to beneficiaries in the first 65 days of a tax year are considered as having been made on the last day of the preceding tax year if the trustee elects to treat the distributions in the same manner for federal tax purposes.

History Note: Statutory Authority G.S. 105-161(d)(5); 105-161(d)(6); 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988; June 1, 1982.

.3722 GRANTORS TRUSTS

G.S. 105-163 provides that the grantor or another person who is treated as the owner of any portion of a trust under Sections 671-678 of the Internal Revenue Code shall be considered as the owner of such portion for state income tax purposes. Federal rules and regulations will be followed in the administration of G.S. 105-163.

History Note: Statutory Authority G.S. 105-163; 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988.

SECTION .3800 - MISCELLANEOUS RULES

.3801 INCOME

(a) A bonus received by a cash basis taxpayer after moving to North Carolina is taxable income to him even though the bonus is paid for services rendered prior to the time the taxpayer moved to North Carolina. A bonus received by a taxpayer after moving out of North Carolina, which is based on services rendered while a resident of this state, is considered as income earned in and reportable to North Carolina.

An employment termination payment received by a nonresident from his employer that is based on years of service is deemed to be compensation for past service and will be taxed to the nonresident in the proportion that the number of years of service the individual had with that employer in North Carolina is to the total years of service with that employer.

An employment termination payment that is made by a qualified employees' pension or profit sharing plan and received by an individual while a nonresident is not taxable by North Carolina.

(k) Liquidating dividends are reportable as gain or deductible as loss from the sale of stock, with one exception as stated below.

When a distribution is made in complete liquidation of a corporation, the amount received by a shareholder is usually treated as full payment in exchange for his stock, and the difference between the amount received and his cost basis of the stock is a reportable gain or a deductible loss. The exception referred to above is that when the distribution is in complete liquidation of the corporation and the transfer of property under the liquidation occurs within one calendar month, the shareholders may make an election which will limit the recognition of that part of an individual shareholder's gain on the liquidation which is attributable to appreciation in the value of certain corporate assets unrealized at the time of the distribution. The requirements for making such an election are set out in G.S. 105-144(c).

When a distribution is made as one of a series of distributions with the intent to effect eventually a complete liquidation of a corporation, no gain is deemed to be realized by a shareholder until his cost has been recovered, after which any amount received is reportable income.

If a corporation's assets are sold and a distribution of the proceeds is made in complete liquidation, the amount received in excess of his cost basis is income reportable by the shareholder.

When a partial liquidation of a corporation occurs, distributions of accumulated earnings and profits are taxable as ordinary dividends. Distributions in excess of the corporation's earnings and profits constitute a return of capital and serve to reduce the taxpayer's cost basis in the stock. Distributions in excess of both earnings and profits and the cost basis of the stock are taxable as a gain from the sale of the stock. The amount determined as ordinary dividends would be subject to the deductible dividend percentage if received from a corporation which paid taxes to North Carolina.

History Note: Statutory Authority G.S. 105-141(a); 105-141.1; 105-144(c); 105-147(7); 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988; August 1, 1986; May 1, 1984; June 1, 1982.

.3802 DEDUCTIONS

(g) When a taxpayer uses a portion of his home regularly and exclusively either as his principal place of business; or as a place of business that is used by patients, clients, or customers in meeting and dealing with him in the normal course of his trade or business, he

may deduct a pro rata portion of the operating and depreciation expense. In determining whether or not the expenses are allowable deductions, the department follows those federal rules and regulations in effect during the income year, except that North Carolina has no provision for reducing such expenses by two percent of adjusted gross income as required for federal tax purposes.

(p) Individuals engaged in the commercial growing of trees are allowed to elect to claim a current income tax deduction for reasonable expenses paid for reforestation and cultivation or they may elect to amortize such expenses over a period of 60 months. No deduction will be allowed under other provisions of the law for amounts deducted under this provision and the deduction must be reduced by any incentive payments which are excludable from gross income. This election must be made within the time prescribed by law (including extensions thereof) for filing the return for the taxable year and may not be revoked.

History Note: Statutory Authority G.S. 105-147(1); 105-147(2); 105-147(7); 105-147(9)a; 105-147(10); 105-147(24); 105-147(25); 105-148(1); 105-148(2); 105-148(8); 105-262; Eff. February 1, 1976; Amended Eff. February 1, 1988; April 1, 1987; February 1, 1987; August 1, 1986.

3803 OTHER ITEMS

(b) When a taxpayer acquires a bond at a price which is less than the redemption value, it is acquired at a discount. If the bond is sold prior to maturity or redeemed at maturity for an amount in excess of its basis, the taxpayer has a reportable gain. If the bond is sold prior to maturity for a price which is less than its basis, the taxpayer has a deductible loss. The taxpayer reports his gain or deducts his loss regardless of whether interest on the bond is taxable or exempt. The ratable monthly portion of the original issue discount on corporate bonds or other evidences of indebtedness (except North Carolina and U.S. Government obligations) is taxable.

A U.S. Government Series E Savings Bond purchased at a given price and redeemable at a higher price based on a schedule printed on the bond is not considered a bond purchased at a discount. For a bond of this type, the difference between the purchase price and the redemption value is interest which is exempt from state income tax.

For obligations acquired on or after October 22, 1986, a purchaser of stripped bonds or coupons is treated as having acquired an original issue discount bond. The amount determined as original issue discount is not taxable but must be taken into account in determining the taxpayer's basis in the obligation. In determining the amount of original issue discount and the adjustment to the basis, federal rules and regulations in effect during the income year will be followed which are not deemed to be contrary to the context and intent of state law.

(m) State Legislators' expenses are deductible to the same extent allowable for Federal Income Tax purposes (including the 80 percent limitation for unreimbursed meals and the two percent federal adjusted gross income floor for unreimbursed employee business expenses), except that for State Tax purposes a legislative day includes any day the General Assembly was not in session but the legislator's physical presence was recorded at a meeting of a board, commission, committee, or council, funded wholly or partly from state funds of which the legislator was a member.

SUBCHAPTER 6C - WITHHOLDING

SECTION .0200 - FILING WITHHOLDING REPORTS

.0202 QUARTERLY AND MONTHLY

Every employer required to withhold North Carolina income tax must file a return on Form NC-5, Employer's Report of North Carolina Income Tax withheld, for each calendar quarter except for employers required to file monthly returns. An employer required to withhold an average of five hundred dollars (\$500.00) or more of North Carolina income tax per month during a calendar year or an employer classified as transient or seasonal must make a monthly report and payment of tax withheld in lieu of a quarterly report.

SUBCHAPTER 6D - ESTIMATED TAX

**SECTION .0100 - FILING ESTIMATED
INCOME TAX PAYMENTS**

.0101 FORMS

The form for payments of estimated individual income tax, Form NC-40, is available from the Department of Revenue in the form of a personalized payment book or a four-part nonpersonalized form. Both types of forms include vouchers and instructions for making the payments.

.0102 REQUIREMENTS FOR FILING

(a) An individual is required to pay estimated income tax if the tax shown due on the income tax return for the taxable year, reduced by the North Carolina tax withheld and allowable tax credits, is forty dollars (\$40.00) or more regardless of the amount of income the individual has that is not subject to withholding.

(b) If a husband and wife make combined estimated tax payments on Form NC-40, they must also file on a combined return, Form

(c) A taxpayer filing a short period return because of changing his income year is required to make estimated income tax payments on the installment dates which fall within the short period and 15 days after the close of the short period which would have been due had he not changed his income year. The penalty for underpayment of estimated income tax for a short period will be computed for the period of underpayment based on the tax shown due on the short period return and computed in the same manner as it would have been computed had the taxpayer not changed his income year.

(d) Applying prior year's income tax refund to current year's estimated income tax: An individual may elect to have his or her income tax refund applied to estimated income tax for the following year. For example, an individual due a refund on his 1987 income tax return may have all or any portion of the refund applied to his estimated tax for 1988. The individual may not however, file a 1987 tax return in 1989 and request the refund be applied to his 1989 estimated tax since the refund can only be applied to the tax year which follows the year for which the request for refund is made.
